Carbon

Victory Loan Opens Monday

Carbon district, with a fine record of performance behind it in previous campaigns, is fully organized for the Ninth Victory Loan campaign which gets under way Monday, October 22.

Carbon's quota in the current drive has been set at \$110,000 and although this is a substantial amount, unit organizers and salesmen are confident that the district will attain its objective before the end of the campaign. Although the quota allocated to this district represents but a small amount of the \$51,000,000 that Alberta has been asked to raise during the current Victory Loan campaign, nevertheless the bonds which will be purchased in this district will be of direct assistance in aiding the province to obtain its quota.

The local Victory Loan campaign organization is alert to the important part this district is being called upon to play in the province wide campaign, and for this reason they are calling upon everyone, townspeople and farmers alike to help the district go over the top.

The budget for the fiscal year tabled in the House of Commons last Friday indicated that the government is alive to the necessity of returning to peace time administration. Personal income tax has been cut by 14 percent and a new income tax deal for farmers appears to be in the offing.

Let the residents of this district do their share. Let us all buy bonds and so aid the government in financing its rehabilitation program.

This district has enacted up an enviable record in previous loans. Let's show the rest of Alberta that we can do it again and sign our name to Victory.

Large Crowd Attends Wedding Dance

Honoring Mr. and Mrs. A. James (nee Elma White) a wedding dance was held in the Scout Hall on Tuesday evening of last week when about 250 friends and relatives gathered to offer congratulations to the couple.

A short program was presented at lunch time the following taking part:

Trio - Misses Shirley Brown, Marilyn Hay, and Neys White.
Solo - Mrs. Geo. King.
Piano Solo - Donald Gordon.

After lunch Mrs. James opened the numerous gifts she received during the evening. She was assisted by Miss Norma Schiek, Mrs. John Diebert, Mrs. Geo. King and Miss Roberta Barnes. Mr. and Mrs. James were married in Ottawa on September 29th, leaving the same evening for a honeymoon at Banff. The bride and groom are members of the armed forces. Mrs. James is the daughter of Mr. and Mrs. W. White of Carbon.

They will reside in Ottawa.

Off the Record

OTTAWA—Notwithstanding all the discussions about meat shortages in Canada, yet the appearances of many people in this country do seem to show that a lot of meat is going to waste.

Harold Bramley Miss Tricker Married

A trio of bridal attendants preceded Doris Tricker down the aisle of Christ church in Carbon, when she exchanged marriage vows with Harold Bramley at an afternoon ceremony Oct. 6. Rev. Mr. Winters of Calgary read the marriage service for the daughter of Mrs. Eva Tricker and the son of J. Bramley.

The bride was given in marriage by her mother, and her long gown of ivory satin and triple shawl was worn beneath her mother's floor length veil which fell from a wreath of orange blossoms. Her only ornament was a gold locket, a gift from her mother, and she carried a shower bouquet of American Beauty roses.

Miss Hilda Smith of Calgary was maid-of-honor. Frocked in a long gown of turquoise blue net with chapel veil in matching shade, she carried a shower bouquet of pink roses. Groomsmen wore white shirts with their floor-length white sheer frocks were worn by the bridesmaids, Miss Florence Downs and Miss Vivian Gibson, of Swallow. They carried bouquets of pink and white carnations.

Dwight Graff was groomsmen, and the wedding music was played by Hugh Isaac who also accompanied Mrs. Bert McGrath of Rocky Mountain House, when she sang "I'll Walk Beside You" during the signing of the register.

A reception for many friends of the bride and groom followed at the home of Mr. and Mrs. J. E. Adams where Canon Winters presided the toast to the bride and the groom replied. Following which the bride, assisted by the groom cut the lovely three-tiered cake.

Those assisting in serving were Misses Violet, Pearson, Dorothy Mortimer, Viola Embree, Mrs. J. Hunt and Mrs. J. E. Adams.

The bride's going away ensemble was a cocoa brown dress-maker suit and top coat, with a fox fur and dark brown accessories.

After a short honeymoon in Banff, the bride and groom will make their home south-west of Carbon.

Organize Legion in Carbon

A meeting of the veterans of both wars was held in the Scout hall, Saturday, Oct. 13. There were 22 present. All were in favor of organizing a branch of the Canadian Legion in Carbon. The following officers were elected:

President, F. Paxton.
Vice-president, R. Barnes.
Sec.-Treas., C. Cave.

Another meeting will be held in the Scout hall Saturday at 9 sharp for taking over the charter to form a local branch and to arrange a meeting to be held in the near future for installation of officers by a member of the Legion council who will address the meeting on the work and organization of the Legion. All veterans are asked to attend both meetings.

Application forms may be obtained from the president.

Send in the news! The Chronicle welcomes news items of every description. Correspondents are wanted in the districts surrounding Carbon. Write or call at the Chronicle office for further particulars.

PEACE YET TO BE WON—WANT USED CLOTHING AT ONCE

(By Edna Jacques)

Victory is ours—decisive—also. Life—total surrender. But peace—real peace—has yet to be won. Victory is not the end but only the beginning of our striving.

To win back the peace will not be easy, and certainly will take a long time. We have made a start in the right direction, but only a start.

So far, we have only the blueprints of peace. They won't work themselves, either, we have to make them come true. To achieve their intended effect will require the earnest and daily efforts of many people and many nations.

There is first of all the reconstruction of a shattered world. We must bind up the wounds of the weary, care for those who have borne the battle, do for his widow and orphan. Only this—shall we first a just and lasting peace.

War's end—was not the end of the fight of Europe. For the homeless and destitute, the hungry and forsaken, the barefoot and naked.

the peace is yet to be won.

From October 1st to 20th the Canadian United Allied Relief Fund on behalf of UNRRA will put on a national clothing drive. This will be your big chance to really do a bit toward helping 125 million people in Europe and countless millions here in China get through the coming winter without suffering—may be dying—from exposure and cold.

The things most urgently needed are suits, men's, women's and children's. Old coats, skirts, trousers, dresses, blouses, aprons, overcoats, jackets in all sizes. Scarves and shawls. Footwear (fastened firmly in pairs). Blankets.

The lot of millions of children is appalling. Feet bunched in old rags and gummy socks. No shoes. Emaciated bodies in threadbare wrap-pings.

Their hope for clothing is from this continent. Your attic may hold a "dead to life" for some child or adult. Your old suit may mean the difference between comfort and suffering to some man who has stood so much already.

The drive is now starting. You should begin to rummage your serviceable used clothing which you can spare without buying new.

MOST VALUABLE INSTITUTION

(By H.G.L. Strange)

The work of investigating and combatting plant diseases—stem rust and leaf rust which attack wheat plants—are merely two of them—is centered in the Dominion Rust Research Laboratory, Winnipeg. This institution has produced some valuable varieties of rust-resistant grains such as, Remond and Regent wheats, Vanguard, Ajax and Exeter oats, with others coming along.

Some people assume now that these rust-resistant varieties have been produced, that the work of the Rust Research Laboratory is over. This assumption I find is greatly in error, for just as the Plant Breeder, by crossing different varieties, creates new varieties that are resistant to the existing forms or races of rusts, so is Nature unfortunately busily at work also, creating new races of rusts and other plant diseases. At any time, therefore, a new form of rust may come along to which our existing varieties will not be resistant. We can say, therefore, that the battle against rust is never ended and that the Rust Research Laboratory is only just starting the good work of which it is capable. The work, therefore, of the Rust Research Laboratory, should not only be main-

tained in full vigour, but, considering its small comparative cost, should be considerably expanded so that our farmers can have protection against these dread rust and other plant diseases.

PREPARE START WORK ON \$2,000,000 NORTH ROAD

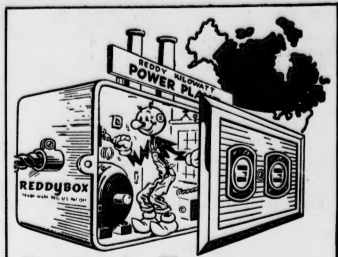

Construction of the \$2,000,000 road over a 400-mile stretch between Grimshaw and Great Slave Lake is to be commenced immediately, according to information received by officials of the Alberta Motor Association.

The 250-mile stretch within Alberta, from Grimshaw north to the boundary with the Northwest Territories, is to be shared on a 50-50 basis between the province and the dominion.

More than 600 men will be employed on the section within the province. There will be five contracts, each for 80-mile sections.

The provincial authorities plan to have work commenced during October, when crews will be enabled to undertake preliminary clearing. It is expected that considerable power machinery will be operated on the project.

Motorists have a special interest in this road as it runs past the famous Alexandra Falls, one of the finest scenic attractions of the whole north country.

Dynamic Force in Canada's Progress

Today, Canada has more developed electric power per head than any other country in the world. That's why Canada, though ranking only 31st in population, has become the second greatest trading nation in the world, and the fourth greatest industrial power among the United Nations.

There is Little Comparison

between the service rendered by Alberta Pool elevators and its competitors.

The Pool system does not exist to extract profits from patrons. Its purpose is to provide farmers with protection, efficient and equitable service, and to do this at cost.

Be sure to deliver your grain to

BUY

Victory Bonds

more than ever before

Space Donated by the
BREWING INDUSTRY OF ALBERTA

You Have TWICE AS LONG TO PAY

So many times you hear people say "I wish I could buy more Victory Bonds."

Well, it has been announced that there will be only one Victory Loan in the next 12 months.

People who buy Bonds now will have a whole year to pay for them.

You Can BUY TWICE AS MANY BONDS

Bear this in mind when the Victory Loan salesman calls on you.

The same rate of savings as in previous loans will pay for twice as many bonds over the 12-month period.

So, buy double this time.

Sign Your Name FOR VICTORY

Farmers can buy Victory Bonds through any bank . . . on convenient deferred payments.

Victory Loan salesmen have copies of the letter at the right. (Banks also have copies.)

When you sign this letter . . . and pay 5% of the cost of the bonds . . . the bank buys the bonds for you. You have 12 months to pay for the bonds and the interest the bank earns pays the interest on the bank loan.

ALBERTA LIQUOR PROFIT \$5,857,202 FOR FISCAL YEAR

Alberta's Liquor Control Board had a record profit of \$5,857,202 for the fiscal year ended March 31, 1945, public accounts for the period shows. This was an increase of \$703,161 over the previous year. Gross sales in the period totalled \$20,964,057, made up of \$7,400,851 for liquor and \$13,563,206 for beer.

TOUGH ON MR. ILSLEY

A district farmer, when asked the extent of his fall loss this year replied bristly, "One hundred per cent; forty per cent lost to me and sixty per cent lost to Mr. Ilesley."

—High River Times

CHARRED STONES IN THE NEW HOUSE OF COMMONS

Every charred stone of the great arch that leads into the old billiard House of Commons Chamber in London, England, is being taken down and numbered carefully, to be re-erected and incorporated in the new chamber. Scattered and scorched as it is, the arch will be a memorial of the night of May 10, 1941, when the House of Commons burned, and in some measure to the courage of all the members of the House who stayed and carried on the Government of Britain in defiance of German bombings.

Sign your Name for Victory BUY VICTORY BONDS

Speaking of Shortages

Speaking of shortages, friend, have you noticed any?

All right, take it easy! So you couldn't get the promise of a new reaper binder earlier than 1947 and you had to pay \$2,000 at an auction sale for a machine Methuselah used?

I was talking to a chap yesterday who'd come up against a shortage too an arm and leg. His old ones weren't worn out—

he'd have been glad to keep them, but the Nazis took them in North Italy. He won't find any auction sale to buy new ones at either.

Another fellow I ran across, home on leave is short five years of his life—he lost them over in Europe, training and fighting to beat the Germans. Then he volunteered to be short another year or two—when and if he got home to help beat the Japs. Now he may have to go and help police them, as so many young men will. And there's my neighbor Mrs. Charlie Jones. She has a family shortage—two sons lost, one on land and one on sea. You know her too! Good! Know what she's doing to help fill the empty hours? She's helping the Wartime Prices and Trade Board check on prices and quality, helping fight off inflation.

You know what brings inflation, don't you? One thing is people paying fancy prices for goods that are scarce, instead of keeping that money in Victory Bonds where it belongs until there are goods enough for all.

Ministerial Meeting

A Ministerial Fellowship meeting was held on Oct. 1st at Knox United Church with the President Rev. R. R. Hinchey in the chair. Rev. L. N. Hughson conducted the devotional exercises and gave the address. The bible study period was conducted by Rev. J. McGillivray.

The next meeting will be held at the Baptist Church Trochu.

Visiting ministers were: Rev. J. B. Hall and Rev. Hoegve of Delburne; Rev. R. R. Hinchey and Rev. A. Wegner of Carbon; Rev. R. E. Powe of Acme; Rev. E. Rempel and Rev. A. Tate Young Trochu.

NO JEEPS—NONE LIKELY

Plagued by tens of thousands of requests, War Assets Corporation came out recently with these salient facts in relation to itself and the jeep:

1. We have no jeeps for disposal.
2. We have never had any.
3. We don't expect to have any for a long time, if ever.

By phone, letter and the spoken word, tens of thousands of citizens have been harrasing the corporation with requests for jeeps to be put into civilian use.

The corporations charged with ridding Canada of her excess war materials, can only say its three lines, point a finger at a certain motor car concern that plans a civilian-converted jeep soon and advises them "Try them".—Montreal Gazette.

CARBON, ALBERTA

Obituary

Following a three months' illness, Joseph A. Grenier, 63, died at his home 115 28th Ave. N.W., Wednesday.

Born in Winnipeg, Mr. Grenier moved to Glencliff with his parents in 1887. He resided there until 1891 when he moved to Carbon where he lived until coming to Calgary in 1912.

He had been employed with the U.P.A. Central "Co-op" store for the past three years and was a member of St. Joseph's church. A daughter Margaret, predeceased him in Carbon in 1906.

He is survived by his widow, Agnes, of Calgary.

Parishioners and friends met for prayers in Jacques chapel Friday at 8:45 p.m. Requiem Mass was celebrated in our Lady of Perpetual Help church Saturday at 10 a.m. Interment followed in St. Mary's cemetery. Jacques funeral home is in charge of arrangements.

BRITISH BACON QUOTA

Canada's bacon commitment to Great Britain is 480 million pounds this year. It is not likely to be filled due to a drop of 38 per cent in hog production. Hon. J. C. Gardiner said the decline in production can be attributed to the heavy marketing a year ago and shortage of farm help, but mainly to reduced feed supplies.

It was because of limited supplies of feed grains that the embargo was placed on exports of barley. The minister of agriculture said Canadian feeders need all the barley available. While feeders in both Eastern and Western Canada are anxious to see as much feed grain as possible made available to them, farmers who depend on the sale of oats and barley for cash returns are not so pleased about the embargo on exports. The latter feel that good markets have been opened for both feed and malting barley in the United States and if such markets cannot be supplied right now the probability is that they may be closed later on when surpluses of such grains again develop in Western Canada.

What makes a little farm a BIG FARM?

It has been said that "a rich man is only a poor man with money". You have also heard that "money makes the mare go" and that "nothing succeeds like success".

Old sayings like these tell you to see the manager of the Bank of Montreal if you need money to make your farm a better farm—if you see opportunities for increased income from increased production.

You do not ask a favour when you ask for a loan at the Bank of Montreal. Lending money is our

business and our manager will welcome the opportunity of discussing your plans with you. He will be glad to study your prospects with you, plan with you, discuss actual and promised revenue, and work out with you a plan of convenient repayments.

Many big farms—successful farms—in all parts of Canada were little farms once. For their development many of their owners have relied on timely loans from the Bank of Montreal. Your B of M manager invites you to share their experience.

NEW IRON PIPELINE

A Glasgow firm has just received what is believed to be the largest order for steel pipes ever placed in the United Kingdom, reports the Financial Times. The order which is for the supply of a duplicate pipeline to Iran, involves one hundred and twenty thousand tons of sixteen inch steel.

During the war 12,611 men and women came from the United States to enlist with the Canadian forces—60% of them in the RCAF. These thousands of young Americans who fought in Canada's army, air forces and navy are eligible for discharge benefits amounting to more than \$2,000,000.

this is the cheque THAT JACK WROTE...

this is the Branch Bank where Jack keeps his money—so he does not have to keep his savings at home with the danger of loss, fire, or theft, and can pay bills safely and conveniently by cheque.

this is the Teller in a branch of a different bank in another city, who made sure that the man who presented the cheque was really the man Jack intended to pay. Then the amount of the cheque was added to that man's deposit account.

this is the Clearing House maintained by the banks so that customers' cheques can be exchanged and the banks can settle their accounts with one another every day. From here, Jack's cheque was sent to the clearing department of his own bank, and from there to the branch where Jack keeps his account.

this is the Ledger-Keeper who made sure that the signature was really Jack's. Then he debited Jack's account. The amount is entered in Jack's passbook next time he comes in, so he always knows exactly where he stands.

This is a sketchy outline of what happens when you pay an out-of-town bill by cheque. Many people pay their large local bills that way too. To be able to pay by cheque is a tremendous convenience which costs you little or nothing. Banks are the bookkeepers for millions of our fellow-Canadians.
